

3.6 Surgery, Transplant and Health Technologies Area

## 3.6.6 Patients Safety and Quality Research Group

Publications: 19 | Q1: 8

### COMPOSITION

**Elena Ramírez García.**

Facultativo Especialista de Área en Farmacología Clínica. Hospital Universitario La Paz

- **Miguel Avenza Jaén.** Fisioterapeuta. Hospital Universitario La Paz
- **Nelson Butrago Sánchez.** Facultativo Especialista de Área en Radiología Pediátrica. Hospital Universitario La Paz
- **Luis Castro Parga.** Facultativo Especialista en Anestesiología y Reanimación. Hospital Universitario La Paz
- **Susana Francisca Chajma Izquierdo.** Facultativo Especialista en Medicina Física y Rehabilitación. Hospital Universitario La Paz
- **Pilar Durán de la Fuente.** Facultativo Especialista en Anestesiología y Reanimación. Hospital Universitario La Paz
- **Inés Narrillos Martín.** Enfermera en Cirugía general y del aparato digestivo. Hospital Universitario La Paz
- **María Fernández-Velilla Peña.** Facultativo Especialista en Radiología. Hospital Universitario La Paz
- **Miguel González Muñoz.** Facultativo Especialista de Área en Inmunología. Hospital Universitario La Paz
- **Alberto Martín Vega.** Facultativo Especialista de Área en Medicina Preventiva y Salud Pública. Hospital Universitario La Paz
- **Bárbara Martínez de Miguel.** Facultativo Especialista en Radiofarmacia. Hospital Universitario La Paz
- **Ana Isabel Martínez Escandell.** Unidad Hospitalización Quirúrgica. Hospital Universitario La Paz
- **Covadonga Mendieta Azcona.** Facultativo Especialista en Cirugía Vascular. Hospital Universitario La Paz

### STRATEGIC OBJECTIVE

- The occurrence of adverse events due to unsafe care is likely one of the 10 leading causes of death and disability in the world. Research into reducing harm to patients can lead to better health outcomes, as well as significant savings in healthcare costs.
- Patient safety is the health care discipline that arises with the increasing complexity of health care systems and the consequent increase in harm to patients. Its objective is to prevent and reduce the risks, errors and damages suffered by patients during the provision of healthcare. A cornerstone of the discipline is continuous improvement based on learning from mistakes and adverse events.

### RESEARCH LINES

- Culture of Patient Safety.
- Incident reporting system for notification and analysis of adverse events associated to Healthcare.
- Zero Infections related to Healthcare.
- Safe Surgery Saves Lives, whose purpose is to reduce the risks associated with surgery.
- Safe Medication, reduce the harm of medications.
- Zero venous thromboembolism, in order to reduce complications attributed to hospitalization.
- Safe Health Worker, Safe patients.
- Safe Transfusions, reduce adverse reactions to transfusion.
- Safe Radiations, to the right patient in the right area.
- Safe Diagnostics, reduce errors that can cause harm.
- Septicemia as a medical emergency.
